Dean Davis to Oregon

Dr. John R. Davis, dean of the University of Nebraska College of Engineering and Architecture, will become chairman of the department of agricultural engineering at Oregon State University following the 1970-71 academic year.

Dr. Davis has served as dean at NU since 1965. He was instrumental in the formation of an engineering research center with active interest in areas that bear on further economic and industrial development in Nebraska.

ReVelle with General Dynamics

Jack B. ReVelle received his Ph.D. in industrial engineering and management at Oklahoma State University, July 31, 1970.

Dr. ReVelle is administrative assistant to chief of management planning and controls with General Dynamics, Fort Worth division. He and his family now live at 6600 Trail Lake Drive in Fort Worth.

Alexander N. Roller, Zeta Chapter, is a nuclear engineer at Bechtel Corporation, San Francisco. Roller's new address is 1608 Dale Ave., San Mateo, Calif.

Glen W. Hopkins, Psi, was graduated from the University of Pittsburgh in April, 1970; married in June, 1970. He is now

working for Westinghouse Electric Co. in the advanced reactors division, Waltz Mill Site, Madison, Pa.

Fall-Winter 1970

Arthur C. Cotts, Epsilon '47, has been elected to a three year term on the 15 member board of directors of Kansas State University Alumni Association.

He received his B.S. and M.S. degrees in electrical engineering from Kansas State in 1949 and 1950. Cotts is currently a program supervisor at the Applied Physics Laboratory of The John Hopkins University. He lives in Silver Spring, Maryland.

K-State Alum Board

Armin Elmendorf, charter member of Theta chapter '14, has secured 100 patents in the field of forest products. He heads Elmendorf Research, Inc., Portola Valley, Calif.

The Elmendorf Paper Tearing Tester, one of his inventions, has become a standard instrument in the paper industry. An Elmendorf invention, Flexwood, is being manufactured in the U.S., France and Brazil. Another development, Centurywood, is being used in thousand of homes in Japan.

Elmendorf has created a new process of converting small pine logs into plywood now in initial use in southern France.

Elmendorf and his wife are frequent visitors in Europe. He is deeply interested in the United Nations and other means for promoting peace through world order.

Elmendorf Invents

in memorium

A charter member of Theta chapter, University of Illinois, died in Barrington, Ill. Aug. 14. Sympathy is extended to the family of Edwin Chester Prouty, '14.

* * *

The adviser to Alpha Kappa chapter at Fresno State College since 1966 was killed in a light plane crash in the Sierras, April 18, 1970. Charles Harold Cehrs, Phi chapter, University of Akron, had been on the Fresno faculty since 1948 and was chairman of the engineering department until 1963 when it became a division. A licensed engineer, Professor Cehrs as a consultant on water problems in Fresno valley. He was a member of National Society of Professional Engineers, the Fresno Engineers Club, American Society of Engineering Education and the American Society of Mechanical Engineers. He was president of the local Sierra Club. His wife was also killed in the crash. Sympathy is extended to their son and daughter and other family and friends.
